Bursa

STEP 1

Install wall brackets using suitable fixings for site requirements. Ensure all wall brackets are same level with each other and correct width apart to match the conveyor rafters on your system.

Note : The tolerance value for "W1,W2,W3" is (+ 13.00 mm , -13.00 mm)

Installation Bracket

Bursa

Sign the holes

Extract the M12 x 100 steel bolts

Drill the holes by \varnothing 17 depth 100 mm

Tighten the steel bolts with installation brackets

Drill the holes by \varnothing 17 depth 100 mm

Tighten the M12 x 100 steel bolts clockwise direction by \varnothing 19 wrench

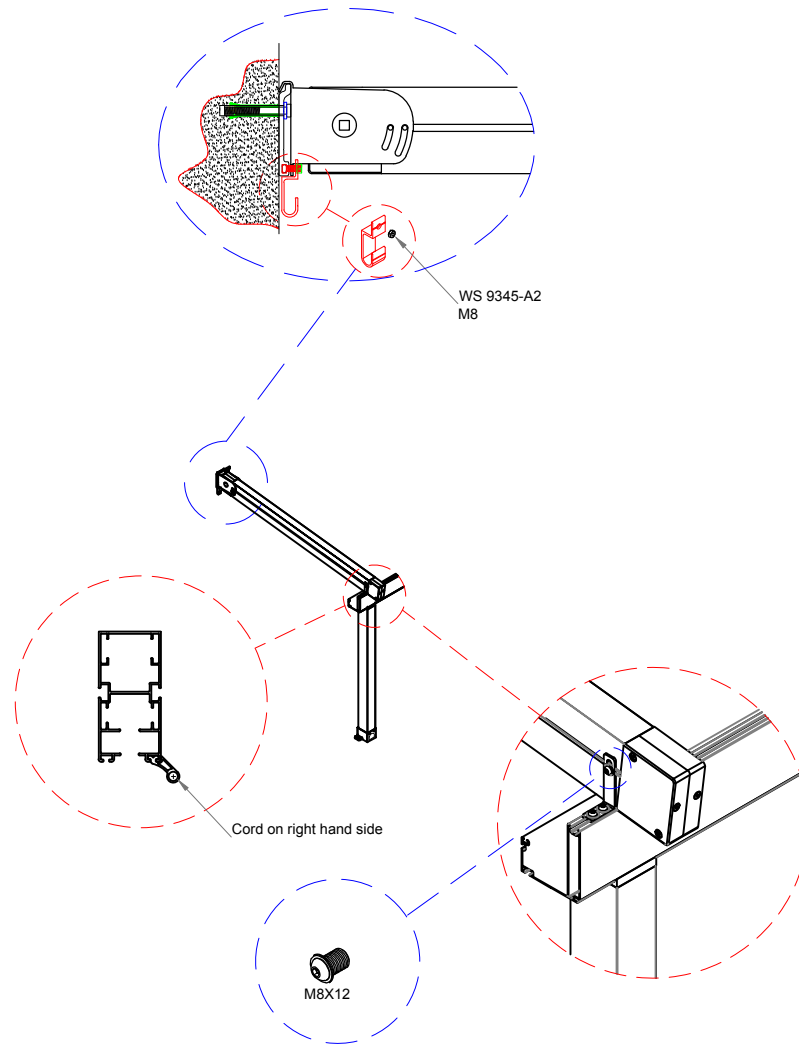

Bursa

STEP II

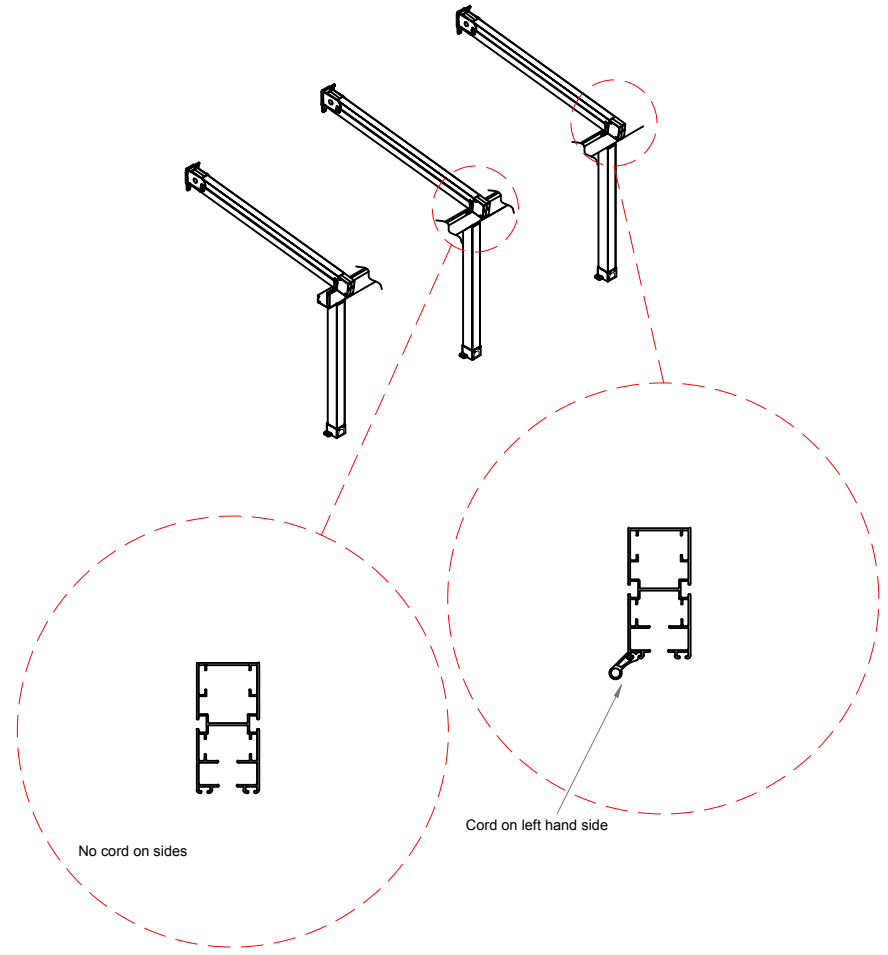

Establishment of front columns & front rafter bar (gutter)

Bursa

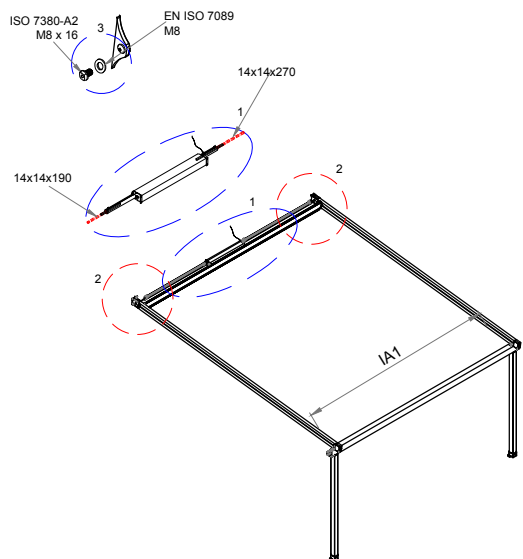

Bursa

Bursa

STEP IV
Installation of motorbox
and support profiles

STEP V

STEP VI
Setting the rectangularity

Bursa

Possibility1

$DD1=DD2 \Rightarrow OK$

Possibility1

$DD1 > DD2 \Rightarrow$ Move front side
to right hand side
until $DD1=DD2$

Possibility1

$DD1 < DD2 \Rightarrow$ Move front side
to left hand side
until $DD1=DD2$

Bursa

STEP VII

Installation of square pins
and transmission bar

Bursa

Drive the square pins to the directions mentioned below on details A,B,C.

Bursa
