DETAIL A

DETAIL B

DETAIL C

DETAIL D

rev. 2-01/2018 technical catalogue
F2 Four wheel slider

Four vertical rollers working together for perfectly smooth operation every time. The F2 four wheel system is proven to remove the jamming issue and can take loads of up to 600KG.

Rafter stormguard edge seal

The rafter Stormguard edge seal stops water from dripping over the side of the system by providing a soft cushioning barrier along the side of the system.

Fabric anti-drop edge cord with electrical cable

The fabric anti-drip edge cord with integrated lighting electrical cable works in conjunction with the Stormguard edge seal to prevent any water leaks over the side of the system.

Gutter stormguard seal

The Stromguard gutter seal provides a perfect seal to prevent water leaks along the front of the system from driving rain of splashing from the gutter.
Hood stormguard seal

The Stormguard hood seal provides the perfect seal to prevent driving rain & wind coming in under the hood profiles.

Integrated gutter & internal drainage system

The integrated gutter system provides the perfect solution for water drainage.

F2 slider and fabric profile assembly

The system has been designed for ease of assembly to save time on installations and reduce the number of staff required.

Easy clip intermediate joints (for 2 & 3 module systems)

The Easy clip intermediate joints have been designed for ease of site assembly to save time and reduce the number of staff required.
Double rafter wall bracket kit
An advanced solution for installing two rafters at once.

Storm channel for joining system
The storm channel is patented solution for joining two systems side by side with a waterproof join.

Motorbox support & hood support profile easy installation
Each support profile is easy to install and simple to adjust at the time of installation.

Base plate with external spout
This base plate provides a water dispersal solution.
F2 slider easy clip installation
The F2 system has been designed for ease of use, to save time on installations and reduce the number of staff required. Each F2 slider can take loads of up to 600KG once in place.

Rafter profile with side channels for easy installation
The RetractableAwnings.com rafter profiles are designed with functional side channels for easy installation.

Hood profile sheets
RetractableAwnings.com hood profile sheets provide an attractive covering solution for the system when not in use. The low profile aesthetic design offers additional protection to the system with a chic touch.

Gutter profile joining bar
A smart solution for joining the gutter profiles.
The RetractableAwnings.com direct drive motor system is a quick and efficient system that drives all conveyor rafters at the same time. The low profile design also allows the fabric to be stored underneath the motor which saves additional space.

Gutter flush with rafter
Gutter solution when the system is installed next to a wall or no overhang of the gutter is required.

Compact 26rpm direct drive motor box
The RetractableAwnings.com direct drive motor system is a quick and efficient system that drives all conveyor rafters at the same time. The low profile design also allows the fabric to be stored underneath the motor which saves additional space.

Aerofoil Louvres
The addition of Aerofoil louvres can provide added shade when the system is closed.

LED-TECH high powered lighting
LED-TECH lighting is an integrated lighting solution that can be added to any RetractableAwnings.com system.
Decorative fabric under layer

The second decorative fabric under layer of fabric can provide an elegant touch of design.

LED-TECH dimmer setup

LED-TECH dimmer lighting is an integrated lighting solution that can be added to any RetractableAwnings.com systems.
