

Minimum widths & sizes subject to change by manufacturer

In order for retractable awning arms to have enough space to fold, when not extended, minimum widths apply for certain projections. For example, in order to use the Roma model with a 16'0" projection, the minimum wall/awning needed is 18'3" as shown in this pdf.

The only model that allows for a projection greater than the width is our Palermo. You can see it's appearance in the pics at this link: <https://www.retractableawnings.com/products/folding-lateral-arm-awnings/palermo/>

PALERMO

PROJECTION	→	5' - 3"	6' - 11"	8' - 6"	10' - 2"	11' - 10"
MINIMUM WIDTH NEEDED	→	min w=6'4"	min w=7'11"	min w=9'7"	min w=11'3"	min w=12'10"

PALERMO with Arm Lowering Kit

PROJECTION	→	5' - 3"	6' - 11"	8' - 6"	10' - 2"	11' - 10"
MINIMUM WIDTH NEEDED	→	min w=4'3"	min w=5'11"	min w=5'10"	min w=6'8"	min w=7'6"

PALERMO PLUS

PROJECTION	→	5' - 3"	6' - 11"	8' - 6"	10' - 2"	11' - 10"	13' - 2"
MINIMUM WIDTH NEEDED	→	min w=6'3"	min w=7'11"	min w=9'7"	min w=11'2"	min w=12'10"	min w=14'6"

VENEZIA

PROJECTION	→	5' - 3"	6' - 11"	8' - 6"	10' - 2"	11' - 10"	13' - 2"
MINIMUM WIDTH NEEDED	→	min w=6'11"	min w=8'7"	min w=10'2"	min w=12'3"	min w=13'11"	min w=15'6"

ROMA

PROJECTION	→	14' - 3"	16' - 0"
MINIMUM WIDTH NEEDED	→	min w=16'7"	min w=18'3"
